EXPERIENCE

Therapié Clinic, Dublin, Ireland — *Frontend Engineer*

JANUARY 2022 - JUNE 2023

Developed an e-commerce store and booking system from scratch using latest technology such as Next.js, React, Typescript and GraphQL and released successfully in the UK, Ireland and the US.

Integrated Stripe following best practices to securely handle payments, successfully processing half a million euro weekly at peak sale times.

Built a design system and component library with Figma, SCSS and Storybook. Led a design and frontend catchup for regular updates.

Built and released a mobile app using React Native, that included both web views and native components.

Implemented and maintained automated testing frameworks, such as Jest and Playwright, to ensure code quality.

Grant Thornton, Dublin, Ireland — *Frontend UI/UX Engineer*

MAY 2021 - JAN 2022

Owned the design and build of an extensive design system and reusable component library built with React, Typescript and Storybook to develop consistent solutions throughout the firm.

Built highly interactive React data driven dashboards for clients powered by Power BI APIs and the SDKs.

Delivered webinars to clients detailing how to improve the user experience and incorporate tools such as customer journey maps.

CurrencyFair, Dublin, Ireland — *Digital Designer & Developer*

AUGUST 2018 - MAY 2021

Lead the redesign of the personal and business brochure site, and involved in building it with React and Gatsby.

Built components in HubSpot with HTML, CSS, JavaScript and HubL which allowed the marketing team to rapidly release lead-generation campaigns.

Developed bespoke landing pages for campaigns including, amongst others, webinar registration pages as well as podcast audio pages.
